# Stand without compromise

The F5 Corpus® VS power wheelchair offers Permobil power standing functionality on a front-wheel base for enhanced stability and ride comfort.

## Stand confident

The F5 Corpus VS has a fully independent suspension on all wheels offering comfort, traction and stability, especially beneficial for active outdoor driving. Easy adjustment of the standing sequences allow your position to be optimised using supine, semi-reclined or sit to stand techniques.

From face-to-face interactions to improved health outcomes, the F5 Corpus VS empowers you to stand with confidence, while our light, swing-away knee supports offer improved comfort and flexible on-chair storage for greater independence.

## Stand in up to 80°

F5 Corpus VS has a standing angle of up to 80°, enabling you to independently perform activities of daily living, such as cooking, shopping and personal care.

## Designed for independence

With a lightweight design, our swing-away knee supports can be moved and handled independently using the easy to reach release mechanism even with limited hand function. With two pad sizes, choose the option that best matches you and easily fine tune the pad placement as needed with the integrated BOA® dial\* for optimal fit and comfort to your needs.

## Programming simplified

QuickConfig is a new innovative app designed for service technicians, clinicians, and providers that offers a simpler way to configure parameters and an intuitive interface to set up F5 Corpus VS with your preferred driving and seating characteristics and standing sequence.

\*BOA® Fit System delivers micro-adjustable, precision fit in a simple to use dial

Base width  
630 mm

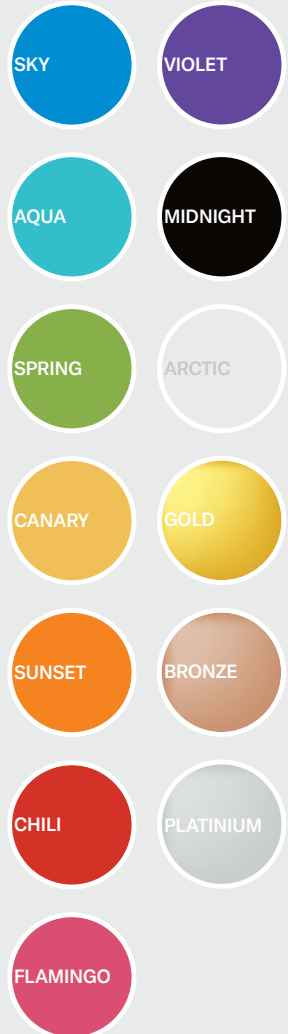

# F5 Corpus<sup>®</sup> VS Specifications

Max. speed	6, 10 and 12 km/h
Range (G24: 85 Ah batteries)	40 km*
